Connectors/Adapters

Swivel Adapter
with Two Fiber Optic Bronchoscopy Caps

This adapter swivels to allow the respiratory circuit to assume a natural angle, reducing drag and uncomfortable pressure. To allow for bronchoscopy procedures, a special cap, fitted over the suctioning port, has a flexible diaphragm that seals around the bronch/fiberscope. 25/box

Item Number
#04-625191

Lightweight Swivel Adapter

This lightweight adapter features a port for suctioning. It swivels in two planes, allowing the respiratory circuit to assume a natural angle so that it does not drag and cause uncomfortable pressure on the margin of the stoma.

15mm connections

SWIVEL ADAPTER

#EG-MC-4450  50/box

Dual swivel angled trach connector approx. 105° angle
The Gentle-Haler is a pocket-sized spacer that utilizes a sophisticated, patented transducer system by Vortran Medical to produce warm, dense, low velocity aerosol of primarily 1 - 3 μm particles. This helps to eliminate cold blasts, coughing, gagging and results in less oropharyngeal deposition.

Most spacers are too large to carry in the pocket or purse so patients do not use them regularly. When it comes to spacers, size matters. This is confirmed by a study comparing the clinical responses of asthmatic patients using the Gentle-Haler versus the AeroChamber. There was no difference between them clinically, but 72% of the patients preferred the Gentle-Haler because of its size and ease-of-use.

Connectors/MDI Adapters

The MEDICOMP

#EG-MC-1523

Meter Dose straight swivel delivers maximum aerosol deposition directly into the breathing system.

1. Place the adapter in the anesthesia ventilator circuit.
2. Remove the cap on the adapter.
3. Depress the pressurized canister according to dose recommendations
4. Provide positive pressure breath to patient.
5. Replace the cap on adapter.

MEDICOMP’s Metered Dose adapters are easy to use and offer the maximum delivery of beta-adrenergic agents.

The #EG-MC-1423 and #EG-MC-1523 are perfect for the periodic in-line administration of the mist bronchodilators. The mist port includes a tethered cap and accepts standard pressurized canisters. #EG-MC-1523 diverts the at a 90° angle to spray directly into the patient’s airstream. This method results in the agent, with maximum set-up and administration.

#EG-MC-1423 Metered Dose Elbow
#EG-MC-1523 Metered Dose Straight Swivel  50/Box

The Gentle-Haler is a pocket-sized spacer that utilizes a sophisticated, patented transducer system by Vortran Medical to produce warm, dense, low velocity aerosol of primarily 1 - 3 μm particles. This helps to eliminate cold blasts, coughing, gagging and results in less oropharyngeal deposition.
Connectors/MDI Adapters

MDI Adapters
For use with Fiber-Optic Bronchoscopy Adapters or Endotracheal Tubes

#GZ-RTC21-A
MDI Adapter
- Reusable
- Polytetrafluoroethylene
- Packaged: 5 / 10

#GZ-RTC21-D
MDI Adapter
- Disposable — Single Patient Use
- Polystyrene Butadiene
- Packaged: 50 / 100

Product Example
- For delivery of medication through Fiber-Optic Bronchoscopy Adapters or directly via Endotracheal Tube
- Can be used for Nasal Steroid delivery
- Accepts plastic or metal tipped MDI canisters

Adult Inline MDI Adapters
Easy MDI access for ventilator patients!

- Internal MDI Port & Cap
- Directs aerosolized medication mainstream for ventilator patients
- Arrows clearly mark direction of airflow
- 6 inches of tubing can be added to create a chamber when applicable
- Accepts plastic or metal tipped MDI canisters

#GZ-RTC22-A
Adult Inline MDI Adapter
Use between Wye and endotracheal tube adapter
- Reusable
- Silicone Rubber Cap
- Polyetherimide
- Packaged: 5 / 10

#GZ-RTC22-D
Adult Inline MDI Adapter
Use between Wye and endotracheal tube adapter
- Disposable — Single Patient Use
- Thermoplastic Rubber Cap
- Polystyrene Butadiene
- Packaged: 50 / 100

Pediatric Inline MDI Adapters
Easy MDI access inline!

#GZ-RTC15-D
Pediatric Inline MDI Adapter
- Disposable — Single Patient Use
- Thermoplastic Rubber Cap
- Polystyrene Butadiene
- Packaged: 50 / 100

#GZ-RTC15-P
Pediatric Inline MDI Adapter
- Disposable — Single Patient Use
- Thermoplastic Rubber Cap
- Polystyrene Butadiene
- Packaged: 50 / 100

Easy inline access!

#GZ-RTC17-1
Inline MDI Adapter Replacement Cap
- Reusable
- Silicone Rubber
- For #GZ-RTC22-A & #GZ-RTC23-A
- Packaged: 5 / 50
Wye Connectors
Reusuable & Disposable

Wye Connector

LCD Thermometers
- Disposable
- Liquid Crystal Thermometer displays 28°, 31°, 34°, 37° and 40° centigrade markings
- Monitors temperature of ventilator or aerosol circuit
- High Density Polyethylene

Ordering #
#GZ-KM-030 50/pk
#GZ-KM-045 50/pk

Note: LCD readings are approximate and not a substitute for definitive temperature monitoring.
Double Nasopharyngeal Airway Adapter

A double pharyngeal airway adapter makes a larger volume of gas available without increasing resistance or patient effort. Curved with 15mm male inlet, makes use of any system of introducing the anesthetic gases over the head. Available in four sizes.

- #19-003236 Double Airway Adapter - 6.0mm
- #19-003237 Double Airway Adapter - 7.0mm
- #19-003238 Double Airway Adapter - 8.0mm
- #19-003239 Double Airway Adapter - 9.0mm

90° connector (Magill Type)

Constructed from chrome plated brass, these connectors are available with and without ports. Proximal end of all sizes fits 5/16" tubing.

Connectors/Adapters

Bronchoscope Swivels
Gentle to expensive bronchoscopy equipment!

- #GZ-BE105-7 and #GZ-BE105-8 Bronchoscope Swivels have easily interchangeable caps.
  - One cap allows for the use of a suctioning catheter.
  - One cap allows the introduction of a fiber-optic bronchoscope without significant loss of PEEP.

- Reusable
- Two Silicone Rubber Caps
- Polyetherimide
