MERCURY® AIRWAY MANAGEMENT SYSTEM
ESPECIALLY DESIGNED TO SAVE TIME AND LIVES

Quality Features:
- Translucent Single-Unit Valve Construction
- Low Resistance, One-Way Duck Bill Valve built close to patient port
- Low Dead Space, 7ml all sizes
- Optional Reservoir Bag or Flexible Tubing reservoir system is available for higher oxygen concentrations
- Single-Patient Use
- 360° Patient Swivel Connection
- No Assembly Necessary
- 360° Two-Way Swivel Action Patient Valve with Manometer Port and Adapter Port.
- No Latex Proteins
- Meets or Exceeds ISO Standard 10651-4
- Independent Testing Performed by Leading Institutions

Benefits:
- Allows for observation of obstructions
- Fast re-expansion/high breath per minute capability
- Allows for monitoring of airway and PEEP pressure
- Allows for peep valve, filter or manometer options
- Ready-to-use
- Cost-efficient

ADULT
For Patients Over 20 kgs
Maximum Rate: 92 BPM

10 case minimum on all custom configuration orders.

DISCONNECT WEDGE

Mercury Medical's Disconnect Wedge provides quick and easy disconnects for most 15mm connections on endotracheal tubes. Now connections can be made snug, reducing accidental extubations and patient trauma when they are wedge-disconnected.

CPR HAND RESUSCITATOR
ACCESSORIES

NOW
Color-Coded

The PEEP Valve works by applying an internal gas pressure to hold the alveolus open throughout inspiration and expiration. This internal pressure aids in the prevention of atelectasis and associated shunt conditions.1

Features:
• Built-in damping mechanism
• 30mm female fitting

Benefits:
• Reduces noise
• Conforms to ISO inlet standards

Specs:
#10-55330 PEEP w/22mm Adapter 12/Box

MANOMETER
The Mercury Medical Disposable Pressure Manometer is the first disposable manometer to reliably monitor BOTH proper inflation pressure and PEEP pressure during manual ventilation with Mercury’s CPR and Hyperinflation Systems. And now the Mercury Medical Disposable Pressure Manometer is available with a color-coded label for improved visibility of pressure ranges.

Specs:
- Item No. Description:
  #10-553-50 Manometer 0-60cm H₂O - 20/Box
  #10-553-51 Manometer 0-60cm H₂O w/Stand & Tubing - 12/Box
  #10-553-52 Manometer 0-40cm H₂O - 20/Box
  #10-553-53 In-Line Manometer w/ Tee 0-40cm H₂O Left Orientation - 20/Box
  #10-553-54 In-Line Manometer w/ Tee 0-40cm H₂O Right Orientation - 20/Box
  #10-553-56 In-Line Manometer w/ Tee 0-60cm H₂O Left Orientation - 20/Box
  #10-553-57 In-Line Manometer w/ Tee 0-60cm H₂O Right Orientation - 20/Box

PATENT # US 5,557,049 B1

BACTERIAL & VIRAL FILTER
The Bacterial Filter provides Bacterial Filtration Efficiency (B.F.E.) of 99.9%. The Filter utilizes three methods of filtration:
1. Multilayered Media
2. Electrostatic Attraction
3. Impaction

Specs:
- Item Number Description:
  #10-55375 Bacterial and Viral Filter 30mm O.D. x 30mm I.D. 20/Box

OMNI-LINK®
Omni-Link® Features:
• Flexible corrugated tubing
• Available in 6” and 12” segments that can be interconnected

Benefits:
• Absorbs movement
• Provides greater versatility and longer reach capabilities
• Reduces arm fatigue and airway trauma
• Helps to avoid accidental disconnects and extubations

Specs:
- Item No. Description:
  #10-55360 OMNI-LINK 12” Length 50/Box
  #10-55361 OMNI-LINK 6” Length 25/Box

Use an MR system with a static magnetic field of 1.5 Tesla or less.
Use an MR system with a spatial gradient of 450 gauss/cm or less.
Laerdal® Silicone Resuscitators

The latest from the leader in reusable resuscitators for nearly 40 years, the Laerdal Silicone Resuscitator has exceptional bag re-expansion and superior feel for lung compliance. The improved design enhances its convenience and maintains the outstanding quality and economy healthcare professionals rely on. All the excellence and integrity of the original!

Preferred by healthcare providers for excellent performance, economy and reliability. Laerdal Silicone Resuscitators have proven to be the perennial gold standard by which other resuscitators are measured.

**Adult Resuscitator Models**
- #07-87005033 Adult Basic w/o Mask in Carton
- #07-87005233 Adult Standard w/Adult Mask 4-5+ in Carton
- #07-87005133 Adult, Complete in Carton
- #07-87005333 Adult, Complete in Compact Case
- #07-87005533 Adult, Complete in Display Case

**Pediatric Resuscitator Models**
- #07-86005033 Child Basic w/o Mask in Carton
- #07-86005233 Standard Child w/Child Mask 3-4 in Carton
- #07-86005133 Child, Complete in Carton
- #07-86005333 Child, Complete in Compact Case
- #07-86005533 Child, Complete in Display Case
- #07-86005633 Child Term-Baby w/Infant Mask 0/1 in Carton

**Preterm Resuscitator Models**
- #07-85005033 Preterm Basic w/o Mask in Carton
- #07-85005133 Preterm, Complete in Carton
- #07-85005333 Preterm, Complete in Compact Case
- #07-85005533 Preterm, Complete in Display Case

**Accessories**
- #07-521100 Wall Mount for Display Case Preterm/Pediatric
- #07-572000 Wall Mount for Display Case — Adult
- #07-871000 Silicone Extension Tube (28 cm)
- #07-870550 Wall Poster (Assembly Guide)
- #07-870120 Hanging Loop
- #07-870400 Laerdal Head Strap w/Attachment Ring
- #07-531901 O₂ Reservoir Bag — 2600 ml
- #07-551901 O₂ Reservoir Bag — 600 ml
- #07-850900 Manometer Connector
- #07-87540033 Intake Reservoir Valve
- #07-560200 Patient Valve
- #07-851250 Patient Valve w/35 cm H₂O Pressure Relief Valve
- #07-851350 Patient Valve w/35 cm H₂O Pressure Relief Valve & Lock Clip
- #07-531907 LSR Intake Valve Adapter (23 mm OD)

PMR 2 Manual Resuscitator

The PMR 2 Resuscitator is a portable, manually powered, resuscitator designed for emergency lung ventilation. Three different systems for administering supplemental oxygen are also available. A special oxygen supply valve designed expressly for the PMR 2 can deliver oxygen concentrations of 100%. An oxygen accumulator accessory provides nominal concentrations up to 95%. A direct feed small bore tube supplies nominal concentrations up to 50%. Two storage cases with optional hanging brackets are available. An optional PEEP accessory helps restore and maintain pressure in the airway during procedures requiring ventilator disconnect and resuscitation. An airway pressure gauge, which can be attached directly to the ventilator support arm, is available to monitor patient airway pressure and to calibrate the PEEP accessory.

Features:
- One-way valve with $40 \pm 5$ cm H$_2$O pop-off with override available for both adult and child application.
- Unique oxygen supply valve delivers concentration up to 100%.
- Rugged carrying cases designed for immediate accessibility of PMR 2.
- Complete line of accessories.
- Resuscitators and accessories autoclavable.
