Peep Valves

Adjustable Magnetic PEEP Valves

- Reusable.
- Easy to operate, effective regardless of position.
- Designed for use with ventilators and any other systems where PEEP or CPAP is required.
- Transparent to allow visual inspection of performance.
- Monitors Tidal Volume by connecting ventilation meter to outlet port.
- PEEP range from 3 to 20 cm H\textsubscript{2}O pressure.

GZ-BE 142-3
Amber 22mm O.D. outlet port for GZ-BE-142 series PEEP valves

GZ-BE 30-142-3
Amber 30mm O.D. outlet port for GZ-BE-30-142 series PEEP valves

Caution: Although the adjustable PEEP Valve can be used in any position, PEEP pressure may vary according to position. This is a uni-directional PEEP valve. Be sure its flow direction is consistent with the expiratory flow. PEEP must be monitored during use.

PEEP VALVE (disposable) - 12/Box
- 30mm female fitting
- 0 - 20cm H\textsubscript{2}O (mbar) adjustable range
- Single-patient-use
- Includes 22mm male adapter
- When using PEEP, the patient’s condition should be monitored and PEEP pressure verified with a manometer.

AMBU PEEP VALVES (reusable)
19-00378A  Adult, PEEP valve 10, 30mm female
19-00378B  Baby, PEEP valve 10, 22mm

PEEP VALVE ADAPTERS
- Reusable
- Adapt Pre-Set PEEP valves to 22mm corrugated tubing

GZ-BE 190
Adapter with 30mm O.D. x 22mm O.D.

GZ-BE 191
Adapter with 30mm I.D. x 22mm I.D.

GZ-BE 192
Adapter with 30mm O.D. x 22mm I.D.

GZ-BE 193
Adapter with 30mm I.D. x 22mm O.D.
